Where: YMCA  
University Settlement  
273 Bowery  
New York, NY 10002

### Note:

**NO BLOOD DRAWN OR NEEDLE  
WORK INVOLVED**

### Hang and others need your help.

Hang is one of thousands of minorities that are diagnosed every year with fatal blood diseases such as leukemia and aplastic anemia. Many will unfortunately need a life-saving marrow transplant for a cure. They are looking for people whose tissue type matches their own so they can receive a second chance at life. They need to find someone like you, willing to become a marrow donor.

Please sign up to join the NMDP Registry of volunteer marrow donors. If you are ever found to match a patient in need, you could save a life.

It's easy to join the NMDP Registry!

You must be between the ages of 18-60, meet the health guidelines, [fill out a form, cheek cell swab and be willing to donate to any patient in need.](#)

Minority donors urgently needed!

Patients are more likely to match donors of the same racial and ethnic heritage. More donors of all races and ethnicities are needed.
